CORRECTION

“For the purposes of Stealth and Perception checks they are considered to be surrounded by normal light.”

CORRECTION

(ie: If the character has Tremorsense it becomes Focused Tremorsense, etc). If they possess Landsight, the range is increased by 5 yards. This bonus shifts as additional Tremorsense talent line talents are acquired.”

**CORRECTION**

To address balance issues with 'Psy' usage, we have altered the calculations for its range of influence. Pray we do not alter it any further.

“The range of a psykic’s abilities is equal to (Willpower × Range Multiplier) + 1. At base the range multiplier is 1, but may be cumulatively increased by 1 for 2 strain. In order to channel any ability, the target must also be within the psykic’s direct line of sight.”

**CORRECTION**

To address balance issues with 'Psy' usage, we have altered the amount of strain a psykic can attempt at a given rank.

“Psykics that perform sleights with a strain greater than 2 times their ranks in the respective discipline, take 1 fatigue prior to channeling. At 10 ranks, this limitation is removed.”

**CORRECTION**

To address balance issues with 'Psy' usage, we have increased the Strain requirements of the 'Bolster Allies' sleight to 5.

**CORRECTION**

To address balance issues with 'Psy' usage, we have increased the Strain requirements of the 'Confusion' sleight to 7.

<table>
<thead>
<tr>
<th>Base</th>
<th>5</th>
<th>2</th>
<th>The target suffers 1 point of paranoia.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Additional Paranoia</td>
<td>3</td>
<td>-</td>
<td>Increase the paranoia inflicted by +1.</td>
</tr>
</tbody>
</table>

**CORRECTION**

We have updated the description of 'Psychic Probe' for clarity. The update is as follows:

“A psykic can project their mind to probe for signs of cognizant life. To perform this sleight, a psykic selects a desired result from the table below then makes a Psy check. If the roll reaches or exceeds the desired result, the sleight is successful and the psykic gains access to the knowledge in the result they selected. The psykic does not gain access to a result higher than the one that they previously specified. If the Psy check rolls below the desired result, no knowledge is gained and the psykic gains 1 fatigue.”

**CORRECTION**

To address balance issues with 'Psy' usage, we have increased the Strain requirements of the 'Stress' sleight to 6.

**CORRECTION**

“If the psykic maintains control of any objects at the start of their turn, they must make a Psy check against 2 UC per object held. This is a free action.”
